

**ADOBE ACROBAT READER IS INSTALLED ON YOUR COMPUTER  
AND IS FUNCTIONING CORRECTLY.**

**IMPORTANT NOTE:** Our stories, because they are REAL illustrated books, are big. The files for full stories run anywhere from 288 K to a couple of megabytes - so be sure to allow enough time for them to download.

We **STRONGLY RECOMMEND** that instead of just clicking on the links for the stories (which causes them to open directly in the browser window in many setups) you instead **RIGHT-CLICK** on the link for the story you want (Mac users: click and hold until the pop-up menu appears) and then select "Save Target As..." (Explorer) or "Save Link As.." (Netscape).

Just save the file as the default name (i.e, 01403.pdf) and be sure to remember where you saved it.

**HAPPY READING!**
